

Independent IRATA International re-assessments are required every three years at all levels, following a minimum of four days of training.

Rope access Technicians **not** engaged in rope access work for six months or more should attend refresher training.

Holders of expired Level 2 or Level 3 certificates that have been expired for more than 6 months should contact an IRATA International trainer member company for information on revalidation procedure. To ensure rope access Technicians are up to date with certification, re-assessment may be done up to 6 months before due expiry date without any time penalty.
